MEMORANDUM FOR: NIO/SP

FROM : VC/NIC

1. I have just read the key judgments for 11-3/8, which in turn led me to re-read the key judgments from last year's version. To a non-expert like me, it's hard to grasp just what judgments in the new version are different. Are we covering new territory, or are we changing our minds on questions we dealt with last year?

2. Should we write one or two paragraphs that would help the reader to grasp the essential differences between the last version and the new one?
